

Triple A
Angus

AAA
BULL SALE

Acquire ^{THE} Angus Advantage

SATURDAY, MARCH 30, 2019 • 1:00 P.M.
JOHNSTONE AUCTION MART • MOOSE JAW, SASKATCHEWAN

OPEN HOUSE

FRIDAY, MAR. 8, 2019

1:00 – 4:00 pm @ HAGERTY LIVESTOCK
6.5 miles north off highway #1 on
Kalium Road, near Belle Plain, SK

FROM THE DESK AT T BAR

Welcome to the Triple A Angus Bull Sale, Saturday, March 30th at Johnstone Auction Mart, Moose Jaw, Saskatchewan. The Triple A Bull Sale will celebrate their 22nd year, supplying high quality sire prospects to the livestock industry. The breeders involved in this event are long standing, with top cow herds, but each program does not have enough cow numbers to sustain their own sale. By coming together, they can provide this cross section of bulls out of their individual programs on the same day.

The bulls are put at Hagerty Livestock after weaning and fed the same ration through to sale time. Prior the sale, the bulls are ultra sound scanned for carcass values and quality. All this information will be available so you can evaluate your selections with your eyes and their data.

Both black and red bulls are represented through these herds and because of the diversity of the programs, you get the opportunity to select bulls that are not related to the sires you have used. The lineup offers bulls for all types of programs and all types of budgets and are worth the trip to Moose Jaw on Saturday, March 30th.

Feel free to preview the bulls at Hagerty Livestock prior the sale, 5.6 miles north of the TransCanada Highway on Kalium Road near Belle Plaine. Call any of the breeders and discuss the bulls and your requirements at any time, they will be pleased to assist. Come early sale day and be guests for a complimentary noon luncheon.

If we, at T Bar C, may be of assistance, prior to or sale day, please contact any of the T Bar team and we will be pleased to offer our professional services.

ACQUIRE THE ANGUS ADVANTAGE

AT THE 22ND TRIPLE "A" BULL SALE

66 YEARLING BULLS ON OFFER
60 BLACK ANGUS • 6 RED ANGUS

Lunch at 12:00 Noon • Sale at 1:00 PM • Saturday, March 30, 2019
 Johnstone Auction Mart, Moose Jaw, Saskatchewan

DEFINITIONS:

- BW – Birth weight – all weights are measured in pounds.
- 205 – Adjusted weaning weight
- AOD – Age of Dam
- Proj Wt. – Estimage of Sale day weight

ULTRASOUND CARCASS DATA:

The importance of carcass trait information will be increased as value based marketing and quality assurance programs become more recognized and commonplace in the beef industry. Cattle should be scanned as close as possible in age at which their progeny will likely go to slaughter. A range from 12 months to 14 months is probably optimal. Ultra Sound Measurements in a Breed Program: As with all genetic traits, ultrasound measurements should only be compared among animals of similar age and similar management. Only then is it of any measured value to use the ultrasound measurement for selection.

BACK FAT

Fat measurement is important for several reasons. First fat depth influences lean meat yields; fat bulls have less lean meat in the carcass. Secondly fat measurements give indications of a bull's fleshing ability. Extremes in either too lean or too fat a bull are undesirable. Moderation is key.

IMF/MARBLING

This may be the most important attribute to be measured with ultrasound. This trait can convert into as much as \$80 difference in a carcass from a AA to AAA grade. The values are numerical and indicate the estimate of carcass marbling if the animal was slaughtered immediately following the evaluation. The scale is as follows:

IMF%	US	CAN	MARBLING SCORE
2.3 – 3.0	Select -	AA -	4.0 – 4.4
3.1 – 3.9	Select +	AA +	4.5 – 4.9
4.0 – 5.7	Choice -	AAA -	5.0 – 5.9
5.8 – 7.6	Choice o	AAA o	6.0 – 6.9
7.7 – 9.7	Choice +	AAA +	7.0 – 7.9
9.8 – 12.1	Prime -	Prime -	8.0 – 8.9
12.2 +	Prime +	Prime o	9.0 +

Bulls will register at least a full degree less marbling and 30% less back fat thickness than steers of the same age and feeding history. The marbling estimates are best utilized by grouping the bulls into high, medium and low marbling groups rather than to compare individuals that differ by only a few tenths of a score.

RIBEYE AREA ADJUSTED TO 100 LBS BODY WEIGHT (REA IN/100 LBS)

The largest ribeye area may belong to the largest bull therefore adjusting the REA to 100 pounds body weight helps determine which bulls are more muscular and which bulls are simply heavier.

LEAN MEAT YIELD (LMY%)

This is the percentage of lean meat in a carcass. Yield grade is an economically important factor in marketing carcasses. With a high genetic potential, this trait can be an important objective in a breeding program.

Our youngest bull in the sale by a calving son of Easy Decision and out of a first calver by BC Lookout that was in our CWA showstring. All that calving ease and still ranked in the top 10% of the breed for WW and 15% YW and Total Maternal. Very nice, moderate framed package. Take a second look on sale day.

This is the fourth year we have had sons of Mohnen South Dakota 402 offered for sale. A paternal brother was our high seller in 2017. Thanks to Nessel Lake Angus from Meadow Lake for their support of our program. Hi Low South Dakota 5F had an October 4 weaning weight of 831 lbs.

Well here is a footnote statement that may surprise many who know me. Lots 15 and 16 are sired by the current reigning World Show Bull of the Year, DMM International 54D. Not something that I am usually drawn to when sourcing bulls to use for my program. Hi Low International 15F is a moderate framed, heavy muscled bull who is our largest adjusted ribeye bull. He posted an actual weaning weight on October 4 of 890 lbs. His dam, Hi Low Lady McHenry 15U, is one of my top cows.

Many say, "It is only one man's opinion when a bull wins a banner", well not so for DMM International 54D. Many men and women have placed him at the top. He has won more shows than I know, including twice winning the top nod of a panel of judges at the CWA Supreme of Champions Show, once alongside his dam and again this past November on his own. Congratulations to Lee and Dawn Wilson and additional owner Glen Gabel for their efforts promoting this stud. Hi Low International 64F has our second largest IMF and LMY numbers.

A high performance, Kozi son out of Shane's foundation Rosebud cow. These were our first set of Kozi calves and they are all very impressive. Outstanding performance and calving ease numbers and an equally impressive phenotype with great muscling and moderate frame. With Sitz Upward on the top side of his pedigree, this fellow will be an outstanding herd sire. You will be hard pressed to find another Kozi son anywhere this spring with the numbers and conformation of this fellow. Will work for both cows and heifers.

Another stout, Kozi son out of a heavy milking, Image Maker cow who has also complimented the calving ease and maternal numbers on this bull. Despite the higher birth weight, this fellow will calve like a dream on cows and will bring some impressive maternal and performance numbers into anyone's program. This bull will remain moderately framed and has an excellent temperament. Recommended for cows.

We have been big fans of KG Solution as he was touted as a calving ease heifer bull which will also add performance to your program and he has delivered in spades for us. We initially used him on first calf heifers only but also several select cows with good calving ease pedigrees, as these sons have been in high demand for us. This fellow is a real stud for a calving ease bred bull and comes with an equally impressive set of performance EPDs. A bit too much birth weight to use on heifers but will be a calving ease dream on cows.

This would be my first pick for a heifer bull in our 2019 line up. Another KG Solution out of a calving ease line of Duchess cows, with his dam being an ET cow out of Upward. We have sold several of these Duchess/Upward ET bulls into heifer breeding programs and used them ourselves at home with great success. This bull has an excellent temperament, an outstanding maternal and calving ease pedigree and the numbers and conformation to make an excellent heifer bull.

Another great calving ease prospect here out of a moderate framed S A V Brand Name cow which also brings Bismarck into his pedigree, which has been one of our favorite maternal AI sires. This bull is very compact and well-muscled and should remain very moderate framed. He has an excellent set of calving ease EPDs and will work well for both heifers or cows.

This would be our third set of Fortitude calves and they continue to impress us. Consistent calving ease in an outcross pedigree has been the attraction for us and this fellow is just another typical example of the Fortitude sons we have been able to bring to market. Mated to a very maternally bred cow carrying the service of TC Advantage and Rainmaker, this fellow will be another slam dunk calving ease heifer bull.

If you came looking for an outcross performance bull, have a look at the numbers on this fellow. Another Fortitude son out of a calving ease, Basin Excitement cow who also has Long Distance in the bottom side of her pedigree, which was an extreme, bet the ranch, calving ease AI sire we used a few years ago. I am a big fan of Excitement, as he has delivered consistently on the maternal and calving ease traits we have demanded in our AI selections and combined with Fortitude, this fellow will let you sleep through the night during calving season. Recommended for heifers but carrying enough frame to work on cows as well.

This Impressive son brings an interesting pedigree coming from Midnight Fire who has been big supporters of the Belvin Angus and Hamilton Farms' programs. A nice uddered and moderately framed dam with a kind disposition will compliment the pedigree and conformation on this fellow. A bit too much birth weight again for heifers but will make an excellent calving ease prospect on cows.

The only non-AI sired bull calf we brought to the sale this year but really liked the potential this calf brings. A half-brother to the high selling Renown son that went to Geoff Anderson at last year's AAA Sale. This fellow comes with a bit more frame and will make a great cow bull. Wilbar Foundation is our herd sire and was selected for his performance as well as the udder and foot structure on his dam. Our Foundation calves have always come easily and we have used him with success on both heifers and cows. This fellow will be recommended for cows and has the frame size and power to get the job done.

DELIVERY

Delivery can be arranged at a cost of \$100 per bull within 300 km of Moose Jaw. If you are over 300 km we can assist you in making travel arrangements at cost.

J.C.C. J.D. 9C - Sire of Lots 37 - 42

Lots 34 - 42. These are the second set of bull calves for sale sired by J.D. He has an outstanding pedigree, great EPDs and was the Reserve Intermediate Bull Calf Champion at Agribition in 2015. He is sired by the \$400,000 bull, International. His dam, Werner Black Angel 1299, is owned by Bohrsen and Rust. She is one of the breeds most complete donor females in the Angus industry. When we purchased J.D. from Jackson Cattle Company, J.D.'s calves were just what we were looking for. His calves continue to exhibit the same tremendous length of body, depth, easy fleshing, moderate birth weight with an easy going disposition. J.D. is siring calves that will get the job done.

Another bull off a first calf heifer that put everything into him. He offers a good look and presence while still having lots of dimension. TK 8005F was born at a moderate 79 lbs. and has never looked back, as he has been a stand out ever since! GQ throws depth of rib and ton of hair in his calves. He also makes excellent replacement heifers. **Heifer or cow bull.**

The bottom side of this bull's pedigree is as good as it gets with greats like Final Answer and Bismarck. This past year we sold a maternal sister to Wilbar Cattle Co. at the Touch of Class Sale. Beef It Up is smooth shouldered and deep sided. He should put pounds on his calves in the fall. **Heifer or cow bull.**

Lot 46 - 47. Here is a pair of embryo brothers that are sure to catch your eye. They are stout made and wide based. Their dam, GFA 66Z, sold a few years back to Neilson Land & Cattle for \$22,000 and we were happy to be able to purchase a flush off of her. Their sire is "Believe" who took the bull sale season by storm and sold for \$146,000 in 2015. Don't miss out on this pair of performance driven bulls whose pedigree back them up. **Cow bulls.**

This bull came to us in dam from HBH Farms. Lotto Max is bold ribbed and stout pinned and is the true meaning of a beef bull. He offers a bit of a different twist on paper. He is off of the high dollar, Hot Lotto son from Hamilton Farms and goes back to Connealy Thunder on the dam's side. This one may be as good as winning the lottery. **Heifer or cow bull.**

If you study pedigrees, I'm sure you noticed this one. This ET son of Motive is a level topped, stout bull who stands square from hock to ground. Motive does not need any introductions as his daughters are ELITE. You can expect exceptional udders from his offspring. Last year our two Motive bulls sold to Wayne Kish and Fairhill Ranch. Don't miss out on this cow maker! **Cow bull.**

Primo has taken the show ring by storm and for good reason. He sires fancy show heifers that are competitive anywhere they go. Hotshot is no exception as he offers an attractive front end and stands on a strong hip and hind leg. This bull has a hair coat like no other. We have retained many daughters off of his dam and sold a son to Larry Menke. **Heifer or cow bull.**

A few years ago when Kodie posted a picture of this bull's sire on Facebook, his phone started buzzing! We were lucky enough to sell him to the good folks at Triple L and we were able to retain half the bull. Ransom, his sire, throws wide topped, long spined and quiet dispositioned offspring. 8051 exemplifies many of the qualities his sire possesses as he is long bodied and big hipped. **Cow bull.**

DELIVERY

Delivery can be arranged at a cost of \$100 per bull within 300 km of Moose Jaw. If you are over 300 km we can assist you in making travel arrangements at cost.

Sired by the Legendary Final Answer, one of the best bulls in the Angus breed. His dam, HRA 5D sired by Intuition 14B (Brilliance x Hoover Dam) was shown at Agribition 2016. She did a fantastic job on her first try with this stout made tank of a bull. He will definitely add some pounds and performance to your next calf crop. Balanced and above average EPDs: TM, CE (top 20% of the breed), BWT, WWT, YWT (top 25%) and Milk, MCE (top 30%).

This guy has been one of our top red bulls from a young age. His presence is undeniable with loads of muscle and great shape. His dam (Sakic daughter) has been a very productive cow and his daughters will be the right kind. His sire, Red Pasquia Hustle 12B, has done a great job for us adding hair, sound feet and great replacement females. 84F will be a performance type bull that could even work on the right kind of heifers. He has great neck extension, a smooth shoulder and a long spine. EPDs: TM 1%, Milk, WWT 3%, YWT 7%.

"Attention Red Angus Breeders." Here is a Black bull that carries the **red gene**. Interesting pedigree: 10 out of the 14 parents are Black Angus including Musgrave Boulder, Hoover Dam and Net Worth. With a -1.5 BWT EPD (top 10% of the breed), Milk (top 6%) and CE (top 7%) this well made bull will definitely work in the heifer pen and produce some top end females.

Retaining an in herd semen use at your convenience and our expense.

Sired by Northern View Gustov 3Z and out of a S A V Mustang dam from the Annie K cow family. Long bodied, square made with a tremendous hair coat best describe this bull. He had that herd bull look at an early age and was a pasture favorite. He will sire some awesome bulls or steers and you will want to keep his females. EPDs: Milk (top 20% of the breed), TM, CE (top 30%). Our top ranked bull for IMF @ 4.42%.

Lots 66, 67 & 68. These calves are from our senior herd sire, "Big Split". He has been a consistent, no surprise producer from the start. He was used on heifers the first year with great results and then moved to the cows. We have retained numerous replacement females from him.

S A V West River was chosen for calving ease, sired by Bismarck, out of a Final Answer dam who was very appealing. We had excellent results calving out the heifers. This guy should make a great heifer bull.

TERMS & CONDITIONS

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

Announcements made from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH...

All animals in the sale have met all necessary health requirements.

GUARANTEE...

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

INSURANCE...

We strongly recommend that insurance is purchased for full value.

PHONE, MAIL & WIRE BIDS...

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

ERRORS...

All announcements at sale time, written or oral, supersede any written material in the catalogue.

DELIVERY...

Delivery can be arranged at a cost of \$100 per bull within 300 km of Moose Jaw. If you are over 300 km we can assist you in making travel arrangements at cost.
