

# Acquire Magus Advantage

# **NEW DATE**

23<sup>RD</sup> ANNUAL BULL SALE
SATURDAY, APRIL 11, 2020 • 1:00 P.M.
JOHNSTONE AUCTION MART • MOOSE JAW, SASKATCHEWAN

YEARLING & TWO YEAR OLD RED AND BLACK ANGUS BULLS

# FROM THE DESK AT T BAR

Welcome to the 23rd Annual Triple A Angus Bull Sale, April 11th at Johnstone Auction Mart, Moose Jaw, Saskatchewan. Consider how many "green-tagged" calves have been sired by bulls selected through the Triple A Bull Sale over the span of a couple of decades. The consignors have strived to offer the newest and freshest genetic sires for the beef cattle industry. It is a credit to the breed and the Triple A breeders who make it happen.

The bulls in this sale represent the production of herds not large enough to sustain their own sale. This makes for diversity in genetics and phenotype. You can rest assure that these performance minded bulls are high in maternal values. Whether you are looking for a power bull with exceptional muscle and weight or a "sleep-easy" sire for your heifers or one that will suit both pastures, they are here for all types of programs and budgets.

Stop by Hagerty Livestock anytime prior the sale to preview the bulls. Located 5.6 miles North of Highway #1 on Kalium Road near Belle Plaine. Feel free to call any of these progressive breeders and discuss the bulls, they will be pleased to fill you in on their offering.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

Chris Poley

RED	1.2	35	60	22	39	0.57	2.4	5.5

# **TERMS & CONDITIONS**

#### TERMS.

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

Announcements made from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

#### CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

#### PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such

#### HEALTH.

All animals in the sale have met all necessary health requirements.

#### GUARANTEE...

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

#### INSURANCE.

We strongly recommend that insurance is purchased for full value.

#### PHONE, MAIL & WIRE BIDS...

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

#### IABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

#### FRRORS

All announcements at sale time, written or oral, supersede any written material in the catalogue.

#### ELIVERY...

Delivery can be arranged at a cost of \$100 per bull within 300 km of Moose Jaw. If you are over 300 km we can assist you in making travel arrangements at cost.

These are the third set of bull calves for sale sired by J.D. He has an outstanding pedigree, great EPDs and was the Reserve Intermediate Bull Calf Champion at Agribition in 2015. He is sired by the \$400,000. bull, International. His dam, Werner Black Angel 1299, is owned by Bohrson and Rust, she is one of the breed's most complete donor females in the Angus industry. When we purchased J.D. from Jackson Cattle Company. J.D.'s calves were just what we were looking for. His calves continue to exhibit the same tremendous length of body, depth, easy fleshing, moderate birth weight with an easy going disposition. J.D. is siring calves that will get the job done

Lots 28 - 32

This will be our last group of bull calves from our Big Split 19A herd sire. Unfortunately, he was injured beyond recovery last fall while sorting out differences with the four-year-old. Every cattle person has one of these bulls that they hate to part with.

You will see that there are no extremes, just a consistent group. Attributes include moderate birth weights, a good foot and temperament. We have retained numerous Big Split heifers to build our herd and are proving to be excellent mothers.

We have a strong group of red bulls on offer this year and we start them off with this Little Deep 7E son. This dark red, smooth made, deep ribbed fella will catch your eye. These Little Deep sons are alot of deep. His granddam is 16 years old and is due to calf in March. I hope his dam, 15D, will follow in her footsteps. 7G has an 83 lb. birth weight, he could be used on heifers. Check him out on sale day.

This is the first bull to sell out of Red GJP Outlander 52E, a bull we own with Pugh Farms. Greg showed Outlander 52E at the Lloydminster Stockade in 2017 where he was Junior Bull Calf Champion. He also showed him at FarmFair 2017 in Edmonton where he was Bull Calf Champion in the Spring Division. We had him on display at the Angus Tour this summer in the Saskatoon area. 64G is a long bodied, wide topped, square made bull with plenty of rib shape. His C-Bar Anticipation dam, 9D, is doing an outstanding job, both her calves have made it to this sale.

Another Outlander 52E son and what a tank of a bull here. With a dark red, thick hair coat and a wide top this square made, deep ribbed rascal will be easy to find on sale day. Lots of performance here. Born on March 18 this guy weighed 1198 lbs. on February 6, 2020 for a weight per day of age of 3.70 lbs. To top it off his nine-year-old mother, 26X,is a CAA Elite Dam. With an 82 lb. birth weight and a 205 weight of 828 lbs. this exceptional bull could be used on heifers or cows.

We have a strong group of black bulls on offer with five out of the six sired by Intuition 14B, a bull that was developed here at Triple A. We finally sent him to town this past week at six years old and on the way home I stopped at Hagerty's to look at the bulls and make some notes. 30G is our first Intuition son on offer. He's out of a Tiltest dam who has been doing a good job for us. Good length, deep ribbed, small head, smooth shouldered, square made with a wide top best describe this fella. He'd work on heifers and has enough performance to use on cows. EPDs: Top 10% of the breed for BWT and CE.

Here's a Fortitude 11E son out of a Mustang daughter that goes back to Final Answer. 31G is the second bull that his dam, 208Z, has had in this sale (one sold last year to Kool Spring Ranch). She also has daughters working at Crossing Angus in Manitoba and LCL Angus in Alberta. Fortitude adds spine length to all his offspring. 31G displays that, plus his smooth shoulders and small head, make him an easy choice for the heifer pen. EPDs:Top 10% for BWT, Top 8% for CE and MCE.

Here's a Little Deep son that puts it all together nicely. Clean fronted, dark red and big hipped. His 13-year-old dam has left us with many good calves over the years. All three daughters have been retained in our herd and six sons have made the bull pen. 19G is backed by a great cow family and would be a safe choice for the heifer pen. You will want to keep his daughters.

This Outlander 52E son has been an eye catcher since birth. He is smooth fronted and long spined. He has an 84 lb BW and ranks in the top 25% for Birth Weight and Maternal Calving Ease EPDs. He ranks in the top 10% for Calving Ease as well. All these factors make him a sound choice for the heifer pen and his calves should have some growth as well.

Sired by Red Six Mile Rawhide 614D, this deep ribbed bull is backed by proven genetics on both sides of his pedigree. 614D has left us with a very consistent calf crop. Unfortunately, he was injured on pasture and this will be our only year offering his calves.105G's dam goes back to Red Wheel Dodge City 3U and has been producing sound, easy fleshing calves for us. 105G is more of a performance type bull but could be used on larger framed heifers.

HRA 61G is a carbon copy of his sire, Intuition 14B. When looking at my notes I described him as super deep ribbed, good feet, good butt, wide top, smooth shoulder, square made and looks like dad when he was at Triple A. We used Intuition 14B as our main herd sire and he has sired 28 herd bulls out of 80 progeny, the most notable are Minburn Intuition 23D (working in Jonathan Lock's herd) and Intuition 37E (a black/red carrier) that we are using and had on display at the Angus Tour this summer. If you look up 61G's pedigree you will find Bismarck (Elite), Brilliance, Hoover Dam, Mytty in Focus (Elite), Special Focus and Final Answer (Elite). His Special Focus adm, 8B, is a no miss cow with one daughter in our herd and has produced three bulls. 61G has a 77 lb. BW and 205-day WT of 769 lbs. Here's a heifer bull with performance. EPDs: Top 2% of the breed for BW and CE. Top 8% for MCE.

This early March Intuition son weighed 1300 lbs. on February 6th with a weight per day of age of 3.81 lbs. His projected sale day weight is over 1500 lbs. A wise old cowboy once said, "They all get big, but what counts is how fast they get big." This guy will definitely add some growth and pounds to his calves.

#### **BETWEEN NOW AND DECEMBER 31ST, 2020**

Active Members of the SSGA will receive a \$1,250 Young's Equipment Gift Card for Parts and/or Service at any Young's Equipment location with the purchase of any of the following new units:

- Case IH MFD Loader Tractor (60-185 HP)
- Case IH RB565 Round Baler
- NDE Vertical Mixer
- Highline CFR Bale Processor

In addition to that, we will donate \$250 per unit sold to the Saskatchewan Stock Growers Association to support their formidable cause.

# **NU-HORIZON ANGUS**

Lots 45 - 48 are all sired by HLC Kozi 963E who was the second-high seller in 2018 from the Hollingers. He is a quiet, moderate, easy fleshing bull that checked all the boxes.

These four bulls are patterned the same: square made, smooth in the shoulder and have an excellent foot under them just like their sire. Their ADG ranges from 3.1 to 3.3, showing his consistency in their performance. Half the genetics come from the dam so they will be referred to below. All are really good mothers.

90 lbs. 735 lbs. HTD 71F was used last year on a group of our cows we bred for April calving.

He is a son of GGA Upward 23B, a bull we purchased at the Triple A Sale. The 23B progeny has consistently been moderate birthweight with above average weaning weights.

HTD 17F is a virgin bull. He is unregistered as his mother (HTD 114Z) was a result of yearling bull pen breach (shit happens). I do know a great deal about his sire, Hi Low Right Time 38F. 38F was a home raised calving-ease son of Leachman Right Time. 38F has a -2.4 BW EPD which is top 1% of the breed. His calves are born light with lots of vigor. Lately, we have started to use our limited supply of his frozen genetics. Recommended for use on heifers.
