FOREWORD

Welcome To LaBatte Simmentals 40th Annual Spring Bull & Female Sale, Friday, March 6th, 2020 at Johnstone Auction Mart, four miles west of Moose Jaw, SK on #1 highway. It's a special one, our 40th annual!

We would like to thank all the bidders and buyers from our past forty years for the continued support and effort you make to attend our sales, year after year. We really appreciate it. Lots of our bull and female customers have become good and close friends over the years and that is very important to us as well. Can't believe it's forty years that we've been making the trip to Johnstone Auction Mart, who have hosted all our sales. And to Transcon Livestock who have managed all our sales. I'm hoping I can make it to the 50th annual sale, time will tell. We're so lucky my daughter-in-law and grandson are very interested in the purebred cattle and Lynlee, our son, works with the 300 head of commercial cows.

As I write this foreword we are in a real cold snap right now. Makes calving a little more difficult but we seem to always get through it. The forecast in the near future looks like a real warming trend coming so that will be greatly appreciated.

The calf and cow prices are going up rapidly in January with cow prices already over \$.90, unusual for this time of year. And the calf prices have also been going up. The demand for those big, soggy Simmental and Simmental cross calves is bringing a premium and adding extra profit dollars to the commercial people's pockets.

Again this year East Poplar Simmentals, Kyron & Kelsey Manske of Coronach, SK, will be guest consigning approximately 20 bulls. Many are out of the 50 purebred cows they purchased from us in the fall of 2018. They are young, enthusiastic breeders that are a pleasure to work with. They believe in the same values as us, focusing on the commercial industry first, purchasing top bulls and semen packs to better raise quality beef bulls for the commercial industry.

As for our bull sale offering we will be selling the first sons off IPU Lieutenant 24E. He was our top selling bull in our 2018 sale, selling for \$52,000 to Hoegl Livestock and Bohrsen Marketing. Both Kyron and I are very excited about his progeny. He's so consistent in type and quality. Also in our red division we will have the first progeny off of Black Gold Approval 71E, a calving ease specialist that still maintains some growth and quality. He is mothered by one of the most impressive red cows in the business, RF Certainly Flirtin 532C. Add in the proven herd sires Red Century, Brooks and Red Zone, and we think our red section is as strong as ever. Our black section is headed up by Springcreek Liner 56U. We went back and bred some cows to him again and are we glad we did. Some very impressive, powerful sons are the result. Again some quality Bentley sons and some blaze face Priority bulls that are awesome. This might be the strongest set of black bulls we've ever sold. Our fullblood section is headed up by another new bull, Black Gold Elevation 20E. We are so impressed with his calves, both male and female. He sires dark red, goggle eyed, thick, meaty sons and also very good females. This is a bull you're going to hear a lot more about. In the heifer division we will be selling a few less than usual in quantity but very high in quality. Highlighted by some outstanding Priority daughters, RJY Chip 18E daughters and also outstanding ¾ and ½ blood heifers.

If you are unable to attend the sale, give myself or East Poplar Simmentals or any of the sale staff a call to have the sale offering evaluated for you. We can be reached on our cell phones: Barry 306-815-7900 or Kyron 306-267-7530 or Johnstone Auction Mart at 306-693-4715. The sale will also be broadcast live on dlms.ca, so contact Mark Shologan for more information and help getting approved for bidding at 780-699-5082. We welcome your visit to our farms anytime to see the bulls and heifers first hand.

Come join us Thursday night at the Heritage Inn in our hospitality room for some socializing and laughs. We look forward to seeing you on Friday, March 6th at Johnstone Auction Mart, Moose Jaw, SK. Join us for a complimentary dinner prior to the sale and also after the sale for some socializing, refreshments and snacks. Best of luck in 2020 and hope to see you sale day.

Barry

P.S. Grandkids all doing great. Brodyn has turned sixteen and is driving legally now. He's a big help on the farm. The rest are full of energy, growing like weeds and are keeping busy with their sports, girls in basketball and karate, boys in hockey, 4-H and curling. Nice to have them so close so that we are able to watch some of their games.

LaBatte Simmentals - Wilf Davis, Douglas, MB

Sale Headquarters

Heritage Inn - 1590 Main St. N., Moose Jaw, SK
South of the overpass at the junction of #1 and #2 Highways
Telephone: 306 693-7550 306 693-1242 (ask for rooms reserved for LaBatte Simmentals)

Health

All bulls will be scrotal measured and palpated. Bulls over 12 months of age at time of testing will be semen tested. **Bulls under 12 months of age at time of testing will be semen tested prior to delivery.** Weights will be posted sale day. All bulls and heifers were given Cattlemaster 4, Somnustar PH and Fortress 7 in June and boosted with same in September. All were treated with Ivomec Pour-on in September and January.

**"Sight Unseen"
Purchase Program**

If you are unable to attend the sale but are interested in our bulls give Barry or Kyron a call and they will personally go over the bulls and your program with you. They will recommend which bulls they think would meet your satisfaction and refer you to one of their sale staff.

In-Herd Semen

LaBatte Simmentals & East Poplar Simmentals reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the seller's expense and the buyer's convenience. Any semen collected will be for in herd use only.

Delivery

At the buyer's option and risk, LaBatte Simmentals and East Poplar Simmentals will take purchaser's bulls home, feed them under their management and deliver them FREE anywhere in the prairie provinces to your nearest central location. We will do our utmost to deliver them right to your yard. Delivery will take place between April and the middle of May. For bull buyers outside the prairie provinces, bulls will be delivered at a reasonable charge. The bulls are the property of the buyer as soon as they are sold. Therefore, buyers must insure their animals for the time they are at LaBatte Simmentals and East Poplar Simmentals. The heifers will be delivered as soon as possible after the sale. Also for our **U.S.** buyers that live in the Dakota's and Montana, we offer free delivery to central points and if possible right to your yard. We look after and pay for all paperwork crossing the border and do offer a sight unseen purchase program.

US Delivery

If you are unable to attend our sale, please join us by viewing the sale live online at www.dlms.ca. For more information and help getting approved for bidding, contact **Mark Shologan 780 699-5082**.

Guarantee

All animals will carry the standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchase price of the animal.

Terms & Conditions

The sale will be conducted under the standard Johnstone Auction Mart Ltd. Terms & Conditions.

Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

IPU BLACK LIMITLESS 3G

HOMO POLLED. HETERO BLACK. A great baldy bull to start our 2020 Spring Bull & Female Sale. This powerful Limitless son is thick, deep quartered, smooth made and has a beautiful haircoat. He was born unassisted out of a first calf heifer who went on to wean him off at 1010lbs actual weight in mid September. His dam is the \$32,000 Deeg Ms Blue Moon 21E that ourselves and Circle 7 purchased as one of their high selling heifers at the 2017 Friday Night Lights Sale. We IVF'd her last spring and have three Liner 56U calves coming this spring off her. Very exciting! This powerful Limitless bull will add pounds and style to your calf crop and his females will be awesome.

IPU DENALI 15G

HOMO POLLED. HOMO BLACK. Black Diamond 108A raises another feature and powerful son. In last year's sale she raised our second high selling bull and the year before a really good El Tigre son. 108A is an exceptional cow, pear shaped, thick and easy doing. The kind you'd like to have a whole herd of. Denali 15G is stout made, deep, has lots of top and muscle and a great haircoat. He would sire a great group of heavy, soggy calves, bulls, steers or replacement females. And as an added bonus he is homo polled and homo black.

A good, solid black, smooth made son out of the bull himself, NCB Cobra 47Y. What a mark Cobra has made on the Simmental industry with his calving ease combined with growth and muscle and he sires outstanding females. 7G is again out of a first calf heifer who weaned him off pasture at 890lbs. The calves off of him will perform and his females, again, will be keepers.

HOMO POLLED. HETERO BLACK. First time we've sold a 3/4 bull in our sale for a long time. His mother is what we call a true 1/2 blood. Her dam is a 1/2 blood and her sire is a 1/2 blood. We took this good, Super Smooth 69B daughter and bred her to the calving ease bull, Skors High Roller. This resulted in an unassisted, 80lb birth weight bull that still weaned off his young mother at 900lbs. He's smooth made, has lots of eye appeal, is off a super uddered first calf heifer and is a candidate for the heifer pen.

HETERO POLLED. HOMO BLACK. This is a good, stout made, blaze face Priority son out of a really good uddered Springcreek Lotto cow. The Lotto cows are great producing females and have excellent udders, comparable to the Liner 56U udders. We have two daughters of 103B retained in the herd. This bull would raise you quite a set of keeper heifers, adding style, udders and quality. His EPD profile is excellent, above average in 12 of 13 traits.

A little nostalgia. Brenda and I wore our old, old fastball jackets at the 2019 Borderline fastball playoffs in Gladmar. Barry pitched for the Gladmar Braves in the 70's and early 80's.

HOMO POLLED. HETERO BLACK. A really good, soggy made Westcott son out of the Pashmenia cow family. His mother raised a full sister to 68G that sold in our 2018 Bull & Female Sale to KT Ranches, BC for \$20,000. She also has sons working at Brian & Daryl Kesslering's, SK and Sheldon Vitrotek's, AB. Her 2018 Bentley heifer was retained in our herd. Westcott 68G is the right kind to raise those big, soggy, loose hided, performance calves that look just like himself.

This is a bull we missed DNAing for homo polled and homo black. He's many times polled and black so should have a very good chance at both. This bull is a performance bull. He has lots of frame, depth, muscle and a great haircoat. He's mothered by a powerful El Tigre daughter that would push the scale down as she is deep, pear shaped and has lots of natural muscle. His sire is none other than NGDB Structure, the powerful Cobra son that was purchased from Hoegl Livestock by ourselves, Bohrsen Marketing, Windy Hills Farms and Rancier Farms. The US and Australian rights have already been sold on him. 71G weaned off his mother at 955lbs this fall. He will add frame and pounds and will sire those calves that the order buyers are looking for.

HOMO POLLED. HETERO BLACK. Wade's Tamale 159A cow has raised another good one. 74G is sired by Outlaw Soda Pop, full brother to the famous Soda Pops that sold at Friday Night Lights. 74G is stout, smooth made, deep bodied and mothered by a great Liner 56U cow with an impeccable udder. You'll drive a lot of miles to find a better looking cow. This is her fourth calf going through the sale. In past sales she's had the high selling black heifer selling to KT Ranches, two bulls selling locally to Brad, Ryan & Blake LaBatte, Gladmar, SK and Cory Pettersen, Gladmar, SK. This bull would sire some super replacement females with added style, perfect udders and broodiness.

Consigned by Wade Lund

44 years and counting. All the best to everyone in 2020.

HOMO POLLED. HETERO BLACK. An outstanding Springcreek Liner 56U bull out of a beautiful, super uddered, black R Plus Reload daughter who we purchased as a high seller from Ultra Livestock at Transcon's Red & Black Sale. We have her first two daughters working in our herd and now this feature bull calf. I can't say enough good things about this bull. He's soft made, thick, big topped, very deep quartered and has a tremendous haircoat. Structurally very sound and big footed. We used Liner 56U a little more this calf crop and we're really glad we did as he has sired some really top bulls and females for us. 82G has herdbull written all over him.

HOMO POLLED. HOMO BLACK.

Two really good, black, blaze face twin Bentley bulls out of a great uddered, baldy 680S daughter we purchased from Greylegde Simmentals from Quebec. We always wanted a daughter out of the great X-T Red Uptopia 60U cow and when we saw this 680S bred heifer in a sale down east I contacted Daryl Snider and we decided to try to buy her. She's turned into a really nice young cow. These two bulls would sire some really good, fancy steer and heifer calves, putting the money stripe on many.

Springcreek Liner 56U

HOMO POLLED. HOMO BLACK. This is truly one of our feature bulls. He's been a standout since birth. Probably my favorite all along. He's solid black, no white anywhere except his baldy head. He's full of meat and muscle, structurally very correct and has a good foot under him. He's mothered by an excellent baldy Poker Face cow with a great udder and sired by the bull himself, Springcreek Liner 56U. Possibly this is his best son ever. We think this bull rivals the baldy bull we sold last year to Jaydawn Farms and that this is a huge feat. He also has a great EPD profile and is Homo Polled and Homo Black as an added bonus. We will be retaining semen on him for in herd use and we think he's going to have a huge affect on our breeding program.

HOMO POLLED. Another good Liner 56U son that is a full brother to the dam of IPU Red Deputy 25C. His mother, the Black Desi 9154W cow, is in our donor program. We have flushed her to different sires to get some outstanding females in the herd off of her. We purchased her out of the Remington Cattle Co. dispersal where she was our pick of the cows. Remington had bought the pick of the heifer calves from the renowned herd of Altenburg Simmental in Colorado. Desi 9154W was their pick. 110G is long, well muscled and has a great haircoat. In this part of the world, especially this last mid January, hair is very important to our commercial and purebred customers.

HOMO POLLED. HETERO BLACK. If you are looking for a black calving ease bull, here he is. He's moderate and smooth made with an 80lb birth weight, born unassisted out of a really good, first calving Priority daughter. She just calved mid January and had another 80lb birth weight bull calf, sired by Bentley. We really believe this is a true calving ease bull. He has a great set of EPDs, being above average in 11 of the 13 traits. He's in the top 3% of the breed for calving ease, top 5% for birth weight and top 1% for maternal calving ease. He has an API and TI in the top 10% of the breed.

HOMO POLLED. HOMO BLACK BY PARENTAGE. These two baldy, transplant full brothers are mothered by an exceptional cow, LFE BS Sheila 82A, many times champion on the show circuit and a top 10 finalist at Agribition Supreme Championship. Circle 7 and ourselves purchased five embryos from Mader Ranches, Canadian Donors and Rust Mountain, the owners of 82A, at a New Year's Resolution sale. We were lucky enough to get four calves, these two bulls and two heifers. 125G and 129G would sire some awfully good replacement heifers with a mother like 82A and the exceptional females Hammer 308A is known for. It might be a good time to double down and take them both.

HOMO POLLED. HOMO BLACK. Again, another true feature black bull. This Bentley sired son has been good since day one. He's thick quartered, deep bodied, has a great haircoat and has that herdbull look about him. His dam has been a great producer for us, she's just never missed. Her first calf, a heifer, sold to Rust Mountain View in our 2015 sale for \$15,000. Her next calf, a baldy bull, to the Knupps at Weyburn, SK then an excellent, soggy Captain Black son to the Solbergs in Montana, her fourth, a stylish Liner 56U son, went to Casey Scrimbit, Crane Valley, next a high performing El Tigre daughter retained in our herd and now one of our favorites, Bentley 135G. Remember this guy is born February 18 but still has excellent performance. He ranked 2nd for adjusted weaning weight out of 60 other contemporaries. We think he's the total package and he's homo polled and homo black and we think homo good.

HOMO POLLED. HETERO BLACK. Another really good Priority son born the end of February. He's a month and a half younger than some of these bulls but you have to appreciate his depth, thickness, hair and correctness. He is mothered by an exceptional Wallbanger cow going back to one of the best 56U daughters you'll find. Brayden Schmidt of Westway Farms toured our place this summer and I think 70B was his pick of our black cows. She is impressive, very nice fronted, deep, deep bodied and has an excellent udder. 151C's sire, MRK Priority 3C, is a herdbull that we are appreciating more and more all the time. His EPD profile is excellent, he calves very well, being in the top 2% of the breed for calving ease. Lots of his progeny have the money stripe, he sires both very marketable bulls and heifers, has a great disposition and his females now milking have good udders. This young 151G shouldn't be overlooked because of his age come sale day. He's worth looking up in the pen.

IPU ELEVATION 35G

POLLED/SCURRED. FULLBLOOD FLECKVIEH. DILUTER. This many times Fleck sired Elevation son has been a standout from day one. With his color, great haircoat, muscle and mass and huge top this is just a powerful, powerful bull. He weaned off his mother mid September at a whopping 1005lbs. His mother is a very impressive, polled Eclectic daughter with power and has a very good udder. 35G is polled/scurred which means if you bred 100 horned cows you should still get half polled calves, same as any hetero polled bull. We think this Elevation son is one of the best Fullblood bulls we've ever raised. We plan on collecting semen off him ourselves for in herd use, that's how much we like him. If you're looking for a powerful, dark red, goggle eyed Fullblood bull, he could be the one.

FULLBLOOD FLECKVIEH. NON DILUTER. Again, another really good Elevation son. Black Gold Elevation was the high selling bull at the Black Gold 2018 Bull Sale. We were bidding on the bull but got out bid by Beechinor Bros. I phoned John right away and we were able to get one of two semen packs on him. Am I ever glad we did as his bulls and females are tremendous. He is going to have a very big influence on our fullblood program. 53G resembles his dad - dark cherry red, goggles, thick and stout and has a good haircoat. He would sire the kind the order buyers and feedlots would fight over.

HOMO POLLED. This is an excellent Lieutenant calf out of a really good Vegas three year old going back to the old matron cow, Pocahontas 105L. This young Vegas cow is also the mother of the \$28,000 Brooks heifer that sold just recently at the December 2019 Simmsational sale to Bohrsen Marketing, Wilson Stock Farm and Mader Ranches. She is very similar to Pocahontas 105L herself, not quite as big but beautiful uddered, dark red and super footed. This bull of hers is deep sided, long, soggy and thick. With his pedigree, stature and style we think he has a good future ahead of him.

IPU RED ZONE 58G

HOMO POLLED. We used a little bit of IPU Red Zone 16A again this past couple of years. We like the performance, stoutness and structure he adds to his progeny. This 58G Red Zone son is dark red, super haired, has great length and depth and has a lot of natural muscle. We have a really good Brooks two year old out of 58G's mother in our herd. Sherry 107C is really good uddered, moderate and a producer. We think this Red Zone son will sire an excellent set of male and female progeny.

HOMO POLLED. Here's a really nice made, loose hided, Homo Polled son out of R Plus Red Century and the Pocahontas 190A Crosby daughter out of the great Pocahontas 68M cow. This is 190A's second bull to go through the sale, her first sold to Doug Green at Mossbank. This past fall a really good red Bentley daughter of hers sold at Simmsational for \$10,500 to Czech-Mate Livestock. And we have a good Westcott daughter of hers in the herd. This cow family produces and this Red Century herdsire should carry on the performance and quality of 190A.

HOMO POLLED. Another good Lieutenant calf out of an excellent Red Ace cow of Hayley's. He's moderate framed, thick made, smooth, has a good haircoat and should calve really easy with his 88lb birth weight, nice small head and the way he is nicely made through his shoulders. Peggy 2X has never missed a year calving. This will be her sixth bull to go through our sale. Previous bulls sold to Prairie Sky Land & Cattle, SK; LaCasse Farms, SK; Triple T Ranch, SK; Trevor Jones, SK; and in last year's sale a Captain Scream son selling to 4S Farms Ltd. She's also had an excellent Horizon daughter sell through Simmsational to Robb Farms. That's quite a track record. Buy with confidence in this smooth made potential heifer bull.

IPU 140B LIEUTENANT 70G

HOMO POLLED. This has been one of our favorite red bulls all along. He's mothered by an excellent Crosby dam who's out of the great Pocahontas 68M cow. 140B has a perfect udder, just like her mother did. This is the third progeny in a row to go through this sale off 140B. Her first being a beautiful Red Deputy open female selling to KT Ranches for \$15,000. The second, in last year's sale, was our high selling red open heifer again, a stout Westcott heifer selling to Pheasantdale Simmentals for \$9,250. And now this tremendously thick, dark cherry red Lieutenant son. With his eye appeal and pedigree we think this Lieutenant bull has a bright future ahead of him.

Jory and Fergie

IPU LIEUTENANT 73G

HETERO POLLED. 73G is a powerful Lieutenant son out of Red Essence 217X going back to her dam the Pocahontas 68M cow family. This is Essence's fourth bull to go through our sale. Previous bulls have sold to Cockburn Simmentals, Diamond K Cattle Co. and Glen Aldentaler, SD. And also she has produced a daughter that sold to Erixon Simmentals as one of the high sellers at Simmsational and she went on to produce one of their high selling bulls in their bull sale with the resulting calf she carried. This Lieutenant bull is a performance bull with his length, depth of body, smoothness and structure. He would sire a powerful set of heavy weaning steer and heifer calves that would push the scale down and put those extra dollars in your pocket.

HOMO POLLED. Brooks 72G is the natural calf off of our donor cow, 89W, a Gunner cow out of the great old Noremac 16M that was shown at Agribition by ourselves and 3D Simmentals to Reserve Grand Champion of the Simmental show. We have sold several embryos and progeny of 89W, most notably the super IPU Red Zone daughter that sold in Simmsational to Wilson Stock Farms for \$25,000. She is now an elite donor in Quinn's powerful set of females he has put together and bred. 89W is now 11 years old and still has a picture perfect udder. Her son, 72G, is deep bodied, long, has lots of natural thickness and weaned off his mother at 940lbs mid September. He has a really nice set of balanced EPDs also.

HOMO POLLED.

IPU Dillinger 14E

Two really good IPU Code Red 53Y sons out of a beautiful Sheriff female going back to the Pocahontas 105L cow family. Their mother, IPU 37A Ms Revlon 90C, has already produced a high seller out of our bull sale. Her first calf, IPU Dillinger 14E, sold for \$28,000 to the good people at Lockhart Valley Simmentals. He is an IPU Dillinger 80B son that is cherry red, long as a freight train, had a 78lb birth weight and has turned into a calving ease sire but still his calves maintain some growth and performance. We saw 14E this past summer and he has grown into a very impressive bull. 90C's second calf was a Captain Scream heifer that we are really high on and she will remain in our herd to carry on the Pocahontas 105L legacy. These two Code Red sons are moderate framed, deep sided, very smooth made and have an excellent set of EPDs, being in the top 50% in 12 of the 13 traits, from calving ease to API. It might be a good idea to just sweep the ring and take them both.

HOMO POLLED. A transplant Red Zone bull out of the great Pocahontas 2Y cow. This will be her seventh bull going through our bull sale. Her previous bulls sold to Maxwells & Darren Clifford; the IPU Dillinger 80B bull we use in our program today as a calving ease bull sold to Kinn Simmentals, ND; a super El Tigre son to Jean Francois LeBlond, PQ; Solberg Livestock, MT; Mitchell Cattle Co. BC; and Handford Simmentals, MB. Some great herds these bulls have went into, both commercial and purebred. Pocahontas 2Y keeps the birth weight down on her progeny with these seven bulls averaging just under 89lbs at birth. She's a beautiful, deep ribbed cow out of the female maker Springcreek Liner 56U and the famous Red Chief donor IPU Pocahontas 52N. This 104G Red Zone bull has a lot going for him, a nice set of well balanced EPDs, really nicely made, stout and big ribbed and a really good haircoat.

IPU 52N Ms Pocahontas 2Y

IPU 72B MR CHIPS 147G

HOMO POLLED. A really good, thick, stout son of RJB Chip 18E and out of a blood red Bootlegger cow that sold through our Simmsational Sale to Quinn Wilson of Wilson Stock Farms for \$25,000. We thought so much of this heifer that we asked Quinn a couple weeks later if we could purchase half of her back and he agreed to. The sire of 147G, RJB Chip 18E, is the high selling bull out of the High Country sale where ourselves and R Plus Simmentals purchased him as the high selling bull for \$24,000. He was a powerhouse, had won many banners in the show ring, and was a real meat machine. LaBatte Simmentals also purchased Chip's dam for \$20,000 and she went straight into our donor pen. This son of Chip is very similar, soggy, full of meat and muscle, dark red and powerful. He has an adjusted weaning weight of 920lbs and is homo polled as a bonus.

HOMO POLLED. A good Lieutenant bull off a cherry dark red Liner 56U daughter. This soft made, loose hided bull has a nice modest 92lb birth weight and has a really good haircoat which we believe is very important especially in this part of the world where it can get really cold as evidenced mid January this year. The commercial men like hairy bulls and the order buyers and feedlot operators want hair on their feeders.

dam of sire

Black Gold Approval 71E

We are ending our red bull section with two 3/4 brothers. Both are sired by the \$40,000 Black Gold Approval 71E and both are out of WFL Westcott 24C daughters, both first calvers. And they both go back to the famous Pocahontas cow families 68M and 105L. We've been using Approval and Dillinger on our red replacement heifers with great success with their ease of calving. 155G had an adjusted weaning weight of 902lbs and 156G had an adjusted weaning weight of 910lbs. Both are moderate, good haired and should be calving ease specialists. Both are also mothered by excellent uddered moms as are most of the Westcott daughters. With a pedigree stacked with breed greats like Certainly Flirtin 532C, RF Certainly Flirtin 202Z, Miss Werning 8543U, Pocahontas 68M and Pocahontas 105L the females should be outstanding from both of these bulls. Together they will add maternal and calving ease.

Welcome to the LaBatte Simmentals Bull & Female Sale with East Poplar Simmentals!

This is our second year as the guest consignor and it is an honour to be a part of a sale that is celebrating its 40th anniversary. That is a true testament to the LaBatte program and the dedication and commitment Barry has made to the breed and his customers. As young producers we are thankful to be able to learn from one of the best and appreciate what well established herds like the LaBatte's have done for the Simmental breed over the years to make it the top breed in the cattle business today.

East Poplar Simmentals may still be a new name and fresh faces to some of you so here is a little introduction. The farm is located east of Coronach, SK and we are strictly a cattle operation. In 2006, after many years of using Simmental bulls on our commercial cows, we decided to get into the purebred business. In 2014, Kyron moved back to the farm and took over the cattle operation. Today we run around 130 cows with about 110 being purebreds and the remainder commercials. Besides the cattle we have some other enterprises on the go. We do custom swathing and haying, are Gallagher and Stockade dealers and Kelsey is the Program Coordinator for the National Young Canadian Simmental Association.

2019 was a big leap forward for our operation with a large group of new females coming into production at our farm and a new sale. As you will see our offering this year is made up of a few different sire groups. With the group of LaBatte cows and our existing cow herd carrying much different services last year it made for a lot of variety. 32 different sire groups were born on our place last year so this explains the large variation in sire groups represented in this year's sale.

We utilize the two-stage weaning process and really love the low stress way of weaning the calves. This year we tried something different with the bull calves at weaning. The pairs were moved onto our multi species cover crop mix about a week before weaning and given a new paddock every 2 days to maximize the trampling effect on the paddocks. Once it came time to wean the calves off, the nose flaps were applied and the pairs were put back into the paddocks for another 5 days. At this time the cows were taken out and put in the pasture next to their calves and the bulls went back onto the cover crop mix for the next 5 weeks with daily moves. The bulls were quieter and spent more time grazing this way instead of being put on feed early in the fall.

All the bulls are on our herd health program and will be semen tested and guaranteed. Delivery is free of charge, but we do ask that any bulls that come back to our place for wintering are insured.

Visitors are always welcome and the bulls are available to be viewed on the farm at any time or give us a call to discuss any of our offering. Videos of the bulls are available at www.eastpoplarsimmentals.com. We have an extensive list of professional sale consultants that can be of service if you are not able to make the sale and the sale will be broadcast live on www.dlms.ca.

Hope to see you all March 6th at Johnstone Auction Mart in Moose Jaw, SK!

Kyron, Kelsey & Embrie Manske

55 EAST POPLAR BROOKS 921G

HOMO POLLED. This guy is one of my favorites in the pen. You have to love how soft made, massive ribbed, and deep quartered this guy is. He's as deep as they come and has a puppy dog disposition. I have been a big fan of all of the SVS Brooks cattle that I have seen to date and we ended up purchasing a son, Sunny Valley Pride 36F, from Wayne and Linda last year and his first calves are starting to come now. EPS 921G's dam is a tank of a cow, like all of the Horizon daughters. Barry sold a daughter off of her in Simmsational 2017 for \$12,500 to Anchor D and a son through the sale last year to Cory Pettersen. This bull has the pedigree and phenotype to go on to be a success story for his new owners.

56 EAST POPLAR LIEUTENANT 913G

HOMO POLLED. A real good, moderate framed Lieutenant son here who is smooth in his lines and a good example of what Lieutenant is producing. We were very impressed with the Lieutenant calves this year. They are moderate framed, long spined and balanced. We feel one of the strengths of Lieutenant will be in his females as well. We have many half sisters in the replacement pen this year and we utilized him heavily again with a majority of our red cows being bred to him last year. EPS 913G will be a well-rounded type of bull with extra performance, but also excellent maternal value. His dam is a beautifully uddered female who comes from one of our most prominent cow families.

HOMO POLLED. Heifer bull prospect here! EPS 903G is a smooth made, deep bodied bull with just an 85lb birth weight and in the top 2% of the breed for Calving Ease and Maternal Calving Ease and top 4% for Birth Weight EPDs. He's out of a beautiful uddered Vegas daughter who we rank pretty high in the cows we purchased from Barry in 2018. When you start to stack herd bulls like Vegas, Horizon, 56U, and Bootlegger into pedigrees you know there will be predictability in this mating.

HOMO POLLED. HETERO BLACK. This guy has got the look! He's one that will catch your eye as you walk into the pen and hold your attention. From a young age 906G has been an attention getter and he's kept getting better. You will admire his depth of body, wide hide and bold rib shape. To see him on the move is a real treat and when you get a chance to further analyze his feet and leg structure you'll see he is as sound as they come. He comes out of a nice moderate 56U daughter who has a beautiful udder and stems from the IPU 61R cow who I would say was one of the most underrated cows in Barry's herd. IPU 61R was a half Fleck cow off the great PRL Houston 005H who did so many great things for Barry's fullblood program.

HOMO POLLED. HETERO BLACK. Here is another LFE Night Hawk 3013D bull we have on offer that can be used in the heifer pen. We sold his dam last year in Simmsational to Fister Farms and we have the pleasure of being able to keep and manage her. She is proving to be a functional, good producing young cow that we like more and more each time we see her in the pen. This bull is smooth made, clean shouldered and straight topped with lots of hair.

EAST POPLAR 38B HITTER 944G

HETERO POLLED. HETERO BLACK. A feature for our black bulls, 944G has been a standout since the summer so we decided to take him on the show road. He was named Reserve Champion Bull Calf and was selected for the final drive in the bull jackpot in Brandon at the Manitoba Ag Ex Show. His mother, Erixon Lady 38B, was named Grand Champion Simmental Female at the same show back in 2016 and was an RBC Beef Supreme Qualifier. We flushed her to LFE Heavy Hitter 352C and this cross seems to be a powerful one with Lot 50, EPS 950G being a full brother. Lot 70, EPS 970G, is also a maternal brother to 944G and 950G. EPS 944G is as stout as they come with a ton of hip, big barreled, wide topped and heavily muscled throughout.

SCURRED. HOMO BLACK. 970G is a result of a flush and he has two maternal brothers in the sale, EPS 944G and EPS 950G, and he follows the same pattern and make up as those two. He is hairy, docile, stout and deep ribbed with a lot of width over the top. If you are in the market for a black bull take a good look at him.

HOMO POLLED. HETERO BLACK. Here's our youngest bull in the sale, but you would never know it to see him. A true performance bull here, with the EPDs to back it up. EPS 980G has a ton of shape to his rib, depth to his quarter and extra length of spine. When you get behind him you have to admire the width through his pins and the way he carries that through his loin and right over his top. For a performance bull you have to appreciate how smooth he is through his shoulders and how he transitions nicely into his front end and into a perfect blaze face. I would love to see a pen of steers that look just like this guy in the feedlot.

FOREWORD

LaBatte Simmentals will be consigning 12 open purebred heifers in this year's sale again, including 7 black and 5 red heifers. This is one of the best sets of heifers we've consigned and they're represented by some of our leading sires – R PLUS RED CENTURY 6200D, R JY CHIP 18E, SVS BROOKS 664D AND MRK PRIORITY 3C. If you have any questions about these heifers before the sale be sure to give us a call and we would be glad to go over them with you. Or, better yet, come and have a look at them before the sale. We would be glad to show you them and their brothers in the bull pen. We will be homo polled testing some of these heifers that we don't know by parentage.

IPU BLACK SATIN 13G

SALE FEATURE. This beautiful, solid black, blaze face heifer is definitely one of the best heifers we've ever sold whether in our heifer consignments at our bull sale or in Simmsational. She has been a star ever since she was born. She's solid black with a beautiful blaze down her head, is feminine, deep bodied, angular shaped, really nice fronted, has a good haircoat and has an excellent set of EPDs, being well above average in 12 of the 13 traits. Just a brood cow in the making. She's off a really good, good uddered Lotto daughter going back to the great D Bar C Blk Satin 680S cow who, at 14 years of age, still has a perfect udder. This Priority female is something special. Whether you want a show heifer, donor prospect or just a great front pasture cow she's the answer. We will have her homo polled tested by sale time.

HOMO POLLED. The mother of this heifer knows how to get it done. Her first bull calf, our feature red bull in our 2017 bull sale, sold for \$42,000 to Deeg Simmentals & Muirhead Cattle Co. His name is IPU Resolve 114D, and is the leading red sire in both their programs. An outstanding Priority daughter off of 144A sold in our 2018 Simmsational sale to Dana & Meghan Johns and in last year's bull sale a really good El Tigre son sold to the Aldentalers in South Dakota. Now this really good Denali heifer that's solid black and broody, has a great haircoat and is homo polled by parentage.

This is a really neat Priority half blood heifer. Her mother is an amazing young cow, the only purebred Black Angus we own. There's a little story behind her. I saw a picture of her on Facebook and fell in love with her. She was selling at the Angus Keystone sale in Brandon along with her heifer calf at side. I phoned Gerry Bertholet of Maple Lake Stock Farms as he was consigning to this sale also. In short, we purchased the two year old for quite a bit of money and Gerry asked if he could be my partner and we were quite okay with that. As you can see in her picture she's one terrific female. This Priority daughter of hers is going to be much like her. She's just about an end of February calf, moderate, very pear shaped, deep bodied but really nice fronted and broody, broody. She should be homozygous polled and homozygous black as Priority is and 4C should be also.

Priority just keeps pumping out the good ones and this heifer has a black blaze face Liner 56U dam as an added bonus. The Priority heifers are very nice fronted and stylish and have length and substance with nice udders. Priority has a great set of EPDs himself from calving ease to top 3% and 4% in weaning and yearling weight, top 1% for maternal calving, big ribeyes and lots of maternal. The 146G heifer is really nice made, long and deep sided with lots of size for her age and really attractive.

IPU MS BLACK ENVY 144G

Another great percentage heifer. She is sired by the 2019 Reserve Grand Champion Simmental Bull at Agribition, a thick made Riddler son shown by Mader Ranches. And we purchased this good heifer's mother, a Brooking Bank Note half blood from Maders, at the SimmPower sale. This was the calf she was carrying. I gave 144G's mother to Hayley & Brodyn for all the hard work they do helping around the farm and working with the purebred cattle. They are very excited to offer this beautiful three quarter heifer to you. She is so nice made, again pear shaped, very broody, has a great haircoat and is very stylish. She is going to become an excellent brood cow.
