## *Sale Day Welcome....*

Welcome to the Premium Genetics Bull Sale. This is a multi-breed offering from some of the most dedicated seed stock producers in the region. This group of contributors continues to improve their offering each year and you will find strong bulls that you can confidently add to your herd.

The drought experienced these last number of years have provided several challenges to the cattle industry. Fortunately, the last year provided record cattle prices across the country. Steers averaging over \$4.00/lbs and record bred cattle prices provide some optimism around the cattle industry.

We have assembled a group of bulls that have been raised by hardy females. A group of females that are sound, efficient, and productive. These bulls, we believe you will find, are sound with good foot quality, lots of middle and muscle shape, and will add pounds to their calves.

Feel free to contact any of the consignors prior to the sale to view or inquire about the bulls. Stop by Johnstone's to see the bulls on the 14th and enjoy some fellowship. If for any reason you are unable to attend the sale, please feel free to contact the sale staff or any of the contributors. Videos of the bulls are on DLMS, and DLMS has will be onsite if internet bidding is preferred.

Sale day lunch will be provided.

Thank you for your interest in our offering and please let us know how we can be of assistance in being your trusted source of genetics for your herd.

# HMS Hi-Cliffe

HMS Hi-Cliffe, owned by the Millham Family, is a small family ranch of 30 purebred Polled Herefords. We are passionate about raising quality cattle for the commercial and purebred industries and are fortunate to have some that are good enough for the show circuit.

The bulls have been vaccinated, dewormed, and treated for external parasites pre-pasture, in the fall, and this spring. All bulls will receive their initial vaccination for foot rot prior to the sale.

We have a very powerful and consistent set of bulls on offer again this year. We focus on sound, structurally correct bulls with maternal strength. All bulls are docile, and halter trained. All bulls are free on known genetic defects. Many of the bulls are homozygous polled with 100% eye pigmentation.

Ultra 306A - dam of 3L

Evolve 112J - sire of 3L

# Lone Pine Cattle Services

Lone Pine Cattle Services is located near Vibank, SK and is owned and operated by Rob, Dawn, Lexie and Jessica O'Connor.

We breed about 100 purebred females annually. Our genetic program focuses on maternal genetics with performance and eye appeal. We achieve this through the use of strong herd bulls, sourcing world leading sires through artificial insemination and new cow families through the use of embryo transfers.

Our calves are vaccinated at birth with Bovilis Nadalgen 3-PMH, in late spring with Vision 8 Somnus with SPUR. They are vaccinated with Pyramid FP5 in early autumn.

- Rob, Dawn, Lexie and Jessica O'Connor

Wow here is a true beef bull! Super wide topped, super deep ribbed and a huge hind quarter. Just like his dad. Even better is his mom, the great MHPH Nita 1015F. She's a beautiful cow that should be the standard for all females.

This guys going to be a great bull to use. And one last thing he has hair on him like a shag carpet! His offspring that inherit this hair will definitely stay warm when it's cold outside!

Born unassisted. Halterbroke.

**715L**

Nita 1015F- dam

# Coulee Crossing Cattle Company

Welcome to the 2025 edition of the Premium Genetics bull sale. This is a great group of people to be part of a bull sale with. The bulls this year have been pail fed a COB ration with a rumensin mineral pellet included with free choice grass hay. The bulls are all quiet and halterbroke for your convenience. With age comes wisdom or so the saying goes. As I get older and running a cattle operation on my own, some things have to give.

I am starting to wind down my angus operation, and so these will likely be the last significant group of Black Angus bulls I will sell. Bulls are available for viewing any time. Please stop by and have a look if you are in the area. Here is to a safe and quick calving season and a warm wet spring for all. See you sale day.

- Sandra Jeffery

19M is smooth made with some stretch and depth of body. Sired by Musgrave Boulder and out of a SAV Final Answer dam, some older calving ease genetics, his pedigree says he should calve easy and have decent performance. His proud Angus head also suggests calving ease. Quiet, good footed and a moderate deep bodied dam just complete the package.

30M is quite the bull. Moderate frame, low birthweight, high weaning weight, smooth, muscular and super quiet temperament. His two year old dam did a great job raising him. She sold privately last fall into the good herd of Gold-Bar Livestock. His 14 year old granddam was one of the first cows to calve again this year. Longevity is built in with this guy. He will sire performance steers and awesome replacement females.

31M patterns similar to the 19M bull with a little more performance and more power. He is deep bodied, quiet temperament, with overall smoothness. His dam has been a problem free producer, moderate framed, easy doing, good udder, and a good foot. He will produce good steers but even better replacement females.

35M has a bit of an outcross pedigree with the older genetics behind him. His very productive 11 year old dam has been a very consistent producer with several bulls making the bull pen. A more power producing pedigree, he will produce heavy weight steers and fancy females. With his length and smooth appearance he will still calve easy.

35M

17M is long bodied smooth made with a near perfect foot. He has a quiet temperament with a nice hair coat. His mother has been an exceptional producer with two daughters going into purebred herds. His sire is an older bull that was known for his productive females. He will produce heavy weight steers and beautiful replacement females. I would like to utilize 17M in my program for April of 2025 if possible.

33M is a heifer bull extraordinary, top 1% calving ease and low birth weight will make him calve like a dream. He still possesses more than adequate growth. Red blaze face, heavy haired, good feet, and free moving. His dam has a nice udder and moderate size. His sire was a home raised bull that I sampled before he sold and was an easy calver.

42M is a powerful meat machine. Dark red, hairy, and the heavyweight of the pen. He was ranked number one at weaning and yearling for weight. His sire has produced well in herd and in Hicks Simmental herd, siring both powerful bulls and fancy females. His dam has leaned very heavily on producing bulls with her only two females kept in herd and producing very well with her first daughter being the mother of the 96M bull. He will produce heavy steer calves and quality replacement females.- Homo polled.

49M, by the same sire as 42M, he patterns very similar. He has length, smooth made, muscle and heavy haired. His 14 year old dam has produced several bulls that have sold well, including one kept for in herd use. All her daughters have been kept as replacement females, a granddaughter mothered the 33M bull as well as the 75M bull. She calved again this January with a beautiful heifer calf. He will produce excellent calves, either steers or heifers. Homo polled.

96M is hairy, deep bodied, smooth made with a small blaze on his face. His first calf mother is a maternal sister to the 42M bull. She produced a good performing bull and bred back to calve a month earlier this year with another bull calf that is already slated to be kept for in herd use. She has a tidy udder with an ideal foot, quiet temperament and easy doing ability. His sire was a sure fire heifer bull here for several years, producing easy calving growthy calves.

# Eden Meadows Farms

Eden Meadows Farm is proud to be back for another year in the Premium Genetics Bull Sale. Terry, Lynette and family have been raising Limousin cattle for more than 50 years, and Terry has been heavily involved in the direction of the Limousin breed by serving on the boards of the Canadian Limousin Association and the Saskatchewan Limousin Association.

We believe in the power of strong maternal females to raise high-producing offspring. The bulls offered today are herd sire prospects that we would use in our own program. Whether you are looking to grow your purebred or commercial herds, EMF bulls will add muscle, performance and overall balance to any offspring. Docility is also a key trait within our cow herd.

All bulls receive Baycox, Multimin and vitamins A & D at birth, and IVR, BVD, BRSV, Haemophilus and Blackleg vaccines are administered in the spring and fall. They are fed with brown oats, a growing supplement and free choice hay.

Please stop by the farm to see our bulls and cow herd. Pictures and videos are available on our Eden Meadows Farm Facebook page.

- Terry & Lynette Heppner

## *Terms & Conditions*

**TERMS:** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**BIDDING:** Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

**ANNOUNCEMENTS:** All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

**CERTIFICATE OF REGISTRATION:** Each animal will carry papers issued by their breed association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**RIGHTS AND OBLIGATIONS:** The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**PHONE, MAIL, WIRE BIDS:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**DELIVERY:** We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

**INSURANCE:** Will be available sale day. We strongly recommend that insurance is purchased for full value.

**ERRORS:** All announcements at sale time, written or oral, supercede any written material in the catalogue.
