Michael Fleury
Former Manager
Saskatoon Livestock Sales

"Brightwater Ranch's success can be contributed to Glenn's love for cattle, his tremendous attention to detail, his keen eye for cattle, outstanding health protocol and the cattle always came first. You can bid with confidence at the Cline dispersal, it represents a lifetime of quality breeding."

Steve Manning
DVM, MSc, Diplomate ACT
Associate Dean, Clinical Programs
Western College of Veterinary Medicine

"Glenn and Norma Cline have been valued clients and friends of the Veterinary Medical Centre at the Western College of Veterinary Medicine for over 50 years. Their cow herd has been on an annual vaccination and deworming program for many years and has the highest health standards. Glenn is a true stockman and friend and has always treated his cows with the highest welfare standards."
