Sales Management Comments

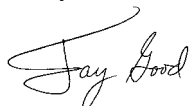

Simmsational always carries the notoriety of one of the really great fall Simmental sales in Canada. It is always complimented, respected and usually well attended. In fact, it is one of the best meeting places for Simmental enthusiasts all fall!

We are very excited to welcome some new breeders to this year's sale who have cattle to offer that are far beyond the quality of rookie consignments! Within these new consignors, will include the recently crowned Grand Champion bull from the Lloydminster Stockade! We really want to thank these newer, younger breeders for having the foresight to start a marketing path in their home province through Simmsational!

This exciting new group of cattle are of course going to be set into this sale with the so many veterans and the quality set of females that Simmsational is always known for! Have a look at this consignor list. Even though I know it is familiar to many of you, consider the great bull sales that are hosted in this province by them!!! That has to get the "wheels turning"!

We encourage you to use our "depot pen" for other sale cattle that are being transported and connected in this central location and stay for a great sale with us. Give us a call for buying assistance you may need if you can't attend personally.

See you in Moose Jaw

Welcome to Simmsational 2019 at Johnstone Auction Mart, Moose Jaw, SK on Thursday, December 12th, the 42nd edition. Wow! I can't believe we've been consigning to all those years. I think it is the longest running consignment sale in the country. The offering remains some of the best in the country also. Nice to see some new young consignors this year and it looks like they are bringing some quality heifers for their first offering. This sale is where a lot of us got our start marketing our programs.

We are consigning ten bred heifers again this year right from the top of our pen. They are headed up by four fullblood heifers, two being polled and bred to the calving ease polled fullblood bull, FGAF Guerrero 810Y. Also four powerful red heifers, maybe the best ever. Three of the four go back to the Pocahontas cow families. They are easy keeping, broody, setting up beautiful udders, all homo polled and are the right kind. Also selling are two solid black heifers, one sired by Stimulus and the other by the popular Wheatland Bentley bull. These heifers are all A.I. bred to calving ease bulls and have no exposures.

Come and join us at the Johnstone Auction Mart on Thursday, December 12th for the 42nd Simmsational sale. These will be some great cattle on offer, good hospitality, food, fun and Christmas Spirit. From all of us at LaBatte Simmentals we wish you a very Merry Christmas and a Happy Prosperous New Year.

Barry

P.S. Grandkids are all doing well. The oldest, Brodyn, will have his driver's license by the time this catalog is out. Can't believe it. All the others are doing well, kept busy with school, sports and growing up way too fast.

Full Fleckvieh. 29B does it again. A smooth polled French Attack daughter that's a full sister to last year's high selling heifer selling to Black Gold Simmentals, Lloydminster for \$34,000. She is currently in their donor program. Like her sister, 44F is setting up a beautiful udder, is dark cherry red, long, smooth, has lots of pigment and is very feminine. These French Attack females are second to none. They have excellent udders, milk good, have great feet and legs, just pure brood cows. She's bred to the polled calving ease bull Guerrero, with the possibility of her calf being homozygous polled. We think this female is a true sale feature and has a bright future ahead of her.

Bred AI April 6 to FGAF Guerrero 810Y P748277. No exposure.

Another exceptional French Attack daughter bred early to FGAF Guerrero. This heifer, too, is dark red, long, smooth made, has big goggles and is a three quarter sister to the lot 1 heifer (IPU 44F). Her sire, FGAF French Attack, has had a big influence on our fullblood program and has got me pretty excited about the fullblood industry again. He sires both excellent bull calves and super females. This fullblood heifer has a lot to offer and her Guerrero sired calf should be exciting.

Broody, broody best describes Aimee 152F. She's deep bodied, angular, big hipped, is setting up a beautiful udder, has lots of pigment and is structurally very sound. This heifer has always been a stand out right from day one. She's the kind of female I would like to build a whole herd around, that's how high I am on her. She's a brood cow in the making.

Bred AI April 6 to FGAF Guerrero 810Y P748277. No exposure.

Smooth polled and dark, dark cherry red. You can't make them much more deep red colored than 191F. She's our youngest heifer in the sale but fits right in with the rest. Her sire, RWR Solstice 33D, was purchased for a calving ease bull but also has put a lot of performance into his offspring. Again, bred to the polled, calving ease specialist, FGAF Guerrero 810Y, 191F has the possibility of producing a cherry red, homozygous polled heifer or bull.

Bred AI April 10 to IPU 2Y Dillinger 80B PG1128510. No exposure.

Homozygous Polled. An excellent Red Deputy heifer out of one of our favorite El Tigre daughters, 24D, who is herself red. 4F is her first calf and she has an excellent bull calf in the pen this year. These Red Deputy daughters are making excellent young cows; fertile, attractive, easy doing and they have beautiful udders. This Red Deputy heifer will make a future brood cow and mated to the calving ease specialist, IPU 2Y Dillinger 80B, should be exciting. In the spring bull sale a Dillinger son sold for \$27,500 to Kunkel Simmentals, ND and in our 2018 bull sale a Dillinger son sold for \$28,500 to Lockhart Valley Simmentals, AB. This is an exciting mating.

Bred AI April 4 to Black Gold Approval 71E PG1221918. No exposure.

Homozygous Polled. This heifer has been one of my favorites for a long time. She has mother cow written all over her. She's dark red, super soggy, very attractive and is setting up a beautiful udder. There's no doubt in my mind that this is one of the most outstanding heifers we've ever sold. As a bonus Pocahontas 105L is her grandmother. She's mated early to the exciting, red, W/C Loaded Up 79C son, Black Gold Approval 71E, whose dam happens to be RF Certainly Flirtin 532C, one of the most impressive red cows in the industry. With a pedigree that reads SVS Brooks, LFE Vegas, Pocahontas 105L, Werning 8543U and Flirtin 532C, the resulting calf should have limitless potential.

Bred AI April 9 to Black Gold Approval 71E PG1221918. No exposure.

Homozygous Polled. Another excellent Red Deputy daughter out of a first calf Vegas daughter out of the Pocahontas 105L cow. 10D is a full sister to the dam of lot 6 (IPU 15F). We were so lucky to get three transplant LFE Vegas daughters out of the old matron, Pocahontas 105L, who walked our pastures to an age of 16. She still had an excellent udder and was one of the best footed cows we ever owned. She was one of the last original Red Chief daughters we had. There's a lot of potential in this heifer with her pedigree and phenotype. She's mated early to Black Gold Approval.

Bred AI April 13 to Black Gold Approval 71E PG1221918. No exposure.

Homozygous Polled. A special heifer, Pocahontas 165F, a red Bentley heifer out of a 68M daughter, Ms Crosby 190A. At this spring's bull sale, Wheatland Bentley's first progeny were in high demand from both commercial and purebred breeders. A son, IPU Bentley 81F, topped the sale at \$92,000 selling to Jay Dawn Farms. Bentley himself was a \$100,000 bull when we purchased him and was a great investment and breeding tool. He was homozygous polled and hetero black, resulting in a few red progeny. This Pocahontas 68M granddaughter has loads of potential. She's deep, broody, feminine and is the kind that can kick out herd bulls.

Another Bentley daughter, this time solid black and out of a really good El Tigre daughter going back to the Blackbird cow family. She's deep, very broody, nice fronted and easy fleshing. She is mated to our exciting black, SVS Brooks son we purchased from MI Simmentals, Mike and Allison Imler. He's out of a Poker Face dam, had an 81 lb birth weight, a calving ease EPD in the top 15% of the breed and yet is stout, deep and very attractive. We're pretty excited about the future of Exceed.

Bred AI April 17 to Hart State of War 056C BPG1180101. No exposure.

Homozygous Polled. A really good Stimulus daughter out of a super, black, R Plus Reload daughter we purchased from Ultra Livestock out of Transcon's Red & Black sale as a bred heifer. She was one of the high sellers of the day. Her first calf was a heifer we retained in the herd, then this good Stimulus daughter and she has an excellent Liner 56U son in the bull pen this year. She has a picture perfect udder, as this daughter, Blackmint 26F, is setting up. She's bred to the popular A.I. sire, Hart State of War, who's in the top 1% of the breed for calving ease but also in the top 1% and 2% for weaning weight and yearling weight. There's a lot of potential in this heifer and she's homozygous polled as an added bonus.

RWS 551F is the total package - structure, feet, moderate birth weight, quiet, large testicles and dark, dark red. A Red Mountain son out of the high selling Authority daughter from Ashworth's female sale. His mother is our best red cow and is going to get flushed this spring. She has a perfect udder and boy does she milk. Authority females are hard to come by and Red Mountain speaks for himself. This bull will produce outstanding females and bulls. He was Grand Champion at 2019 Stockade Roundup in Lloydminster. He will be at Farm Fair and Agribition also. Don't miss this opportunity to own a great, upcoming bull and add him to your herd. You can't go wrong!

Bred April 4 to RWS Ferdenand 551F PG1258629. Pasture exposed to same. Ultrasound safe to early breeding date for January calf.

RWS Flirt 3F is an easy keeping quiet, black, Mader/CS/Rust CRUZ 3D daughter out of a perfectly uddered, heavy milking female. These Cruz daughters are hard to come by and you'll know why once you see her. She will be on the show road and at Agribition alongside the bull she is bred to, RWS 551F, a bull that has been getting a lot of attention this year.

Homo Polled. 121F is a sweetheart of a heifer! She is extremely smooth made, clean cut through her neck and carries herself with a sense of pride. Check out the udder she is setting up. We think very highly of this heifer and are proud to offer her up for your appraisal. Her sire, Erixon Magnum 69D, is a homo polled Sheriff son that brought \$32,000 in our 2017 sale to Swan Lake and Workman Brothers. We thought very highly of Magnum and were very excited to use him in our program. Here is the chance to invest in a young female with years of potential earning power ahead of her and mated up to an exciting new sire.

Homo Polled, Homo Black. If you want to talk cow families, 37F is a granddaughter out of the widely known HPF Ms Honey. We were lucky to purchase 46X out of the Remington dispersal quite a few years back. A maternal sister to 37F was a high seller out of our bull sale in 2015 heading out to Ontario for \$10,000. The udder structure on this cow family has been phenomenal.

Homo Polled, Homo Black. Lady 67F may not be the fanciest as she carries slightly more naval, but she has bull raiser written all over her. Her sire, Relentless, was a highlight in our 2017 bull sale going to Deeg Simmentals. We had a selection of State of War heifer bulls in our 2019 bull sale and we're very happy with how they developed. We calved all our black heifers to him again in 2019 and bred the heifer pen to him again for 2020.

Here is a real top end heifer. She is so deep ribbed and thick in her make up while maintaining her soundness and freedom of movement. We calved 30 Missile daughters this spring and they did a tremendous job on their first calves. 18F's dam, NAC 104B, is a great young cow we purchased from the Carsons as a high selling bred out of the Harvest Hoedown sale. We have purchased quite a number of females from them with tremendous success. 104B's first calf sold through our bull sale, her second, a red full sister to 18F, sold through Simmsational 2017 to Ashworths, and this year a full brother is the best black bull in our pen.

Here is a female that we originally planned on retaining as she easily soared to the top of our 2018 heifer crop and easily ranks at the top of our bred heifer pen in 2019. This fancy fronted, free moving, well balanced heifer is sure to make a great addition to anyone's show string or front pasture. Shameless 3F is a female that screams femininity and just look at the stacking in her pedigree. Her dam comes from the great Shameless Hussey cow family from Rancier Farms and her sire is a Wheatland Exclusive 215 son that we retained in our herd. We couldn't be any happier to offer this bred heifer for your consideration.

This fancy true red 3/4 blood bred heifer is one that we are having a hard time parting with but when you consign to Simmsational you have to bring out your very best. This heifer might be moderate in stature but she definitely doesn't lack when it comes to stoutness and broodiness. If we had a crystal ball and could predict how she is like her mother in any form she will be an extremely easy producing female. Her maternal grand sire is the great S-Paw Blk Uproar 21U which we purchased from the great crew at South Paw Cattle Company.

Coconut is a beautiful feminine tanky female. She possesses natural muscling, tremendous volume, depth of body, and all put together on a moderate frame. Lots of hair and a nice disposition just add to the total package. Her mother is a very consistent producer having her first heifer sold privately into a purebred herd, her only bull sold into a commercial herd using Simmentals for the first time, her second heifer kept in herd, her third heifer in the sale and her fourth heifer also kept in herd. Her mother is known for passing performance, hair, disposition and moderate frames. Her sire, Royal Red, needs no introduction and is known for producing sought after females. Her service sire, Chip 98F is an ultra low birth weight bull who should give her an easy birth while giving adequate performance but maintain moderate frame, thickness and body depth.

 Open.

Extra Girl is very similar in type to her paternal sister, 38G, with just a touch more frame, very hairy, and a small blaze, courtesy of her polled fullblood Extra mother. Extra Girl is an exciting prospect being an outcross to a lot of today's pedigrees. Sired by Red Iron again, moderates the frame and will complement the feet, leg, and udder structure of the Extra cow. The Extra cow is a no nonsense cow that looks like she will be here for a good long time, producing performance offspring. Her two other females were both retained in herd and have been excellent producers.

Very few females have been sold off the top of our herd in recent years. We are proud to offer 142F, a powerful complete package. She is big topped, deep ribbed, very docile and good footed from a top cow family that is strong for udder quality. She will produce herd bulls. Her sire, PWK Red Bourbon, was a \$20,000 purchase from Workman Farms and worth every penny. He will continue to see heavy use at EDN.

Heifers like 88F are the reason we continue to use TNT Tanker in our A.I. program. Progeny are docile, structurally correct and the daughters all have awesome udders. We are excited about her service sire, EDN Prime 51F, who was retained for use on heifers. Hw is dark cherry red and homo polled with a 77 lb birth weight and 1400 lb yearling wt. His EPDs are in the top 1% for CE, 3% for yearling weight, 3% for maternal CE and 2% for marbling. Also the top 1% of the breed for both All Purpose Index and Terminal Index.

Here's a Reload daughter that we are pretty high on. 839F is dark cherry red and a real brood cow in the making. You have to appreciate her for her big middle and feminine make up. We have a few Reload females in the herd and they make nice cows. With Super Duty on the bottom side you know this girl is going to lay down and kick out some calves that will get up and grow. When we ultrasounded the vet was confident she is carrying a heifer calf which is sure to be one for the replacement pen.

These Captain Black daughters have impressed us with their smooth lines and femininity throughout. 851F was an embryo calf off of our Suzy 47W donor who is a real easy doing, big middled female. 47W herself is a daughter of our Ribeye 195P bull who was a large part of why we got into the purebred business 14 years ago. He was the second calf off of the now famous IPU 105L cow and a full sibling to the IPU 71N cow that had such an impact on the Robb Farms herd. We had a ¼ sister to 851F at Agribition a couple years ago who is in our herd now and is still as impressive as ever. 851F is bred early to Night Hawk with a heifer calf.

This female will be sure to catch your eye on sale day. She's wide topped and bold in her rib shape. 10F is turning out to be the powerhouse of a cow like her dam, who was purchased in the 2017 Springcreek Simmentals female sale. Blue Chip progeny have been doing well for many breeders across Canada, and this girl is no exception. Demi is showing the making of a top-end female. She's setting down a great udder underneath, with that sought after blaze face. Here's an opportunity to acquire one that will work in most any herd.

Here is a heifer that I am very proud to offer in Simmsational. Her dam has been a very consistent producer each year. She was purchased as a calf out of the historic Blacksand dispersal. Nicki is super deep-sided with a great set of feet and legs under her. Our Strong Arm females in the herd stand out with their quality udders and fleshing ability. She has half-sibs in the herds of Sunrise/JP and Red Willow Ranch. 51F is a heifer that will be sure to produce with the genetics behind her.

Homo Polled, Non Dilutor. Eve is a dark red, deep sided, broody NCB Cobra daughter out of our Erica 11E cow family. Erica 11E was a foundation cow in our red program and is probably our best producing cow family we've ever had with over 20 females in the herd. Eve has been appreciated by visitors for her smooth front end, wide top, deep quarter and overall dimension. She will turn into a powerful cow that will produce the good ones and to be honest her picture doesn't do her justice. Bred early to MRL Sleep Easy, the Sheriff son who is a maternal brother to MRL Capone and MRL El Tigre.

Homo Polled, 100% Fleckvieh, Non Dilutor. This heifer epitomizes the focus of our Fleckvieh breeding program. She's dark cherry red, heavy pigmented, has tremendous capacity and volume and is setting up a beautiful udder. Zoey's sire and dam come from two of the most respected Fleckvieh programs in Canada. Her sire is our long-time herdsire, BEE Phantom, from the Beechinor program. When Cody saw Phantom this summer he commented "this is one of the heaviest muscled Viper sons I've seen." Phantom has produced many high selling bulls for us and his daughters are turning into productive young cows with excellent udders. Zoey's dam was purchased from Virginia Ranch at one of the last Cow-A-Rama sales where she was the lead off female. This is the first daughter she has given us and should really be staying at home however we wanted to bring our very best for our first time at this sale. Bred early to Starwest Pol Blueprint should be a very exciting mating. Imagine the possibilities if the calf is homo polled and colored just like its momma.

Homo Polled, Non Dilutor. Erin is a super dark red, easy fleshing, SVS Redstream daughter that would be the most moderate of the three we have on offer. She doesn't miss a beat when it comes to her depth of body, spring of rib and overall thickness. Redstream no longer walks our pasture, however we continue to use his semen as his sons are powerful bulls and his daughters are top producers with tremendous udders. This was Cody's pick of the herd so it was hard to say no even though she is our only Redstream daughter in the bred heifer group. Erin also goes back to our Erica 11E cow so she has longevity and fertility in her pedigree. Bred early to MRL Sleep Easy should be an interesting combination.

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, VISA, Mastercard, or Interac, payable at par at sale location. There will be a 3% administration fee on all VISA or Mastercard purchases applied to the buyer's invoice. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors. or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
