CURTIS SIMMENTALS

On behalf of Curtis Simmentals, we would like to welcome everyone to the 2026 South Sask Sale.

First and foremost, we want to sincerely thank everyone who attended last year's sale — our loyal repeat customers, new buyers, bidders, and all of those who have supported and shown interest in our program over the years. Your continued confidence means a great deal to us.

We would like to give a warm welcome to Bohrson Marketing and Dean Edge for partnering with us this year, and big thank you to DLMS for their outstanding service, as well as Johnstone Auction Mart for hosting us. We are also incredibly grateful to our crew at home and everyone who has helped throughout the year. It truly takes a team to make a day like today possible.

This year, we are proud to offer one of the strongest and deepest groups of bulls we've ever brought to town — a set designed to meet the needs of every producer. The lineup includes Solid Reds, Red Baldies, Blacks, and Fullblood bulls. Also this year we have a select group of females for offering.

These bulls are built with purpose — full of muscle, performance, structural soundness, strong testicles, good hair, and excellent disposition. They are backed by hardworking, functional females from the top end of our herd.

Our development program focuses on longevity and functionality. The bulls were raised on tame hay south of the farm until they were pulled from breeding. They then moved to the valley, where they spent the summer and fall months on native prairie, walking the hills and developing naturally until weaning. They were on creep feed beginning in late August until weaning in October. After weaning, they are developed on high-quality hay and a 16% Bullseye bull developer pellet.

Through AI, we have continued to strengthen our genetics. This year represents our first group of Rancher, Lethal Weapon sons, on the red and black side. Along with a with a solid group of full and half sibling flush mates, sired by Synergy, Outlook and Reputation, all out of CLN0 54H for the full bloods.

We stand behind our cattle and our program. If you have any questions about the offering, please do not hesitate to contact us.

Thank you again for being here and for your continued support. We look forward to seeing you on sale day

Curtis Simmentals

EDWARDS ANGUS

Welcome to the 2026 edition of the South Sask Simmental and Angus bull sale. I would like to thank you for your interest in our program and taking the time to go through the catalog.

I am proud of the bulls I have put together for this year's sale. I think they have a lot to offer, everything from power and performance bulls, to maternal traits, to a wide variety of calving ease bulls. They have been fed a high oat and dry hay ration to promote growth and longevity.

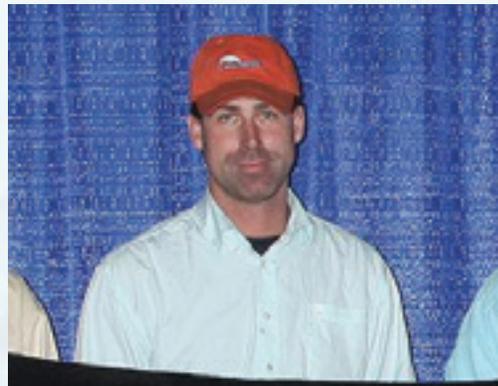

Feel free to come and have a look at the bulls anytime before the sale. If you have any questions regarding the bulls don't hesitate to give me a call. I look forward to discussing them with you to help your decision making easier for you.

Hope to see you at the sale,

Laird Edwards

THE CURTIS FAMILY

LAIRD EDWARDS

W E L C O M E F R O M B O H R S O N M A R K E T I N G

We are excited to welcome you on behalf of the Curtis and Edwards Families to the 2026 South Sask Simmental & Angus Bull & Female Sale. There has never been a better time to invest in quality genetics for the advancement of your program. The time is now to replenish your bull battery and pick up some more top cut females to build around and we feel you will find just that and more within this exciting offering from two prominent breeding establishments. We hope you take this as your personal invitation to be with us at Johnstone Auction Mart on March 16th for this must attend event.

The Simmental Bulls are as uniform and consistent in type and kind as you will find anywhere. The Curtis Simmentals operation strategically utilizes the best possible ai bulls they can and mates those bulls to a certain sire group of cows to breed some uniformity into their bull pen to give their valued customers the opportunity to select closely related bulls. This has proven to work out just as they planned because each bull that you analyze carries the same depth of body, heavy hair coat and easy fleshing look as the one previous. Whether you are after a red, black or Fullblood Simmental bull, the Curtis pen will have you covered in many performance or calving ease options. They have also dug extremely deep into their replacement pen to bring you some exceptional quality to choose from to give you a chance to start a new cow family of your own and this also gives you some great insight as to what maternal merit their bulls have to offer. Laird Edwards' good Angus program is backed by many years of ai breeding and the bulls are backed by a super productive, fault free, easy doing cowherd. These Angus bulls are made up of just 4 sire groups again giving you many options at 1/2 or 3/4 brothers. The Angus bulls are quiet and easy to handle and possess great hair and strong breed character.

These two programs really come together to offer something for everything and both of these breeds compliment each other so well, this really is a sale to get all your bull shopping done at one time in one place. We do hope you make plans to be with us and we encourage you to contact Barry, Landon or Laird to discuss the sale cattle anytime or give our team at BMS a call to answer questions you may have, we would all be happy to work with you. If your bust schedules keep you away from sale day, we would be happy to represent your absentee bidding and buying needs. We look forward to visiting with you about this strong offering and hope to see you sale day!

Best regards,

The Bohrson Marketing Team

BJL MISS 125A

HOMO POLLED - HETERO BLACK

A real stand out and a sale feature. From a young age this big strappin solid black Lethal Weapon son has been at the top. Heaviest weaning weight bull on weigh day. Fault free kind of bull. Super sound awesome footed and good structured. 8N dam is an awesome fault free Captain Morgan daughter that has so much good about her, one of the farm fav cows.

BLACK LETHAL WEAPON & BETTS SONS

HOMO POLLED - HETERO BLACK
 A bigger framed Lethal Weapon son in a solid black Package. He's long bodied super hairy, big middled lots of bone, mass ,and sound. A true power black bull with that herd bull look. His dam has been a very good producing Kill Switch female for us.

HOMO POLLED - HETERO BLACK
 A real hairy moderate framed, big middled Betts son. Wide topped, deep flanked, and sound. His dam has been a good producing cow who has put top selling sons through this ring.

If you want to add length and thickness to your calf crop have a look here. He is probably the longest body, biggest topped, quietist bull in the pen. He has had that impressive herd bull look to him from an early age. One of the best things about this bull is his two year old dam. She is an impressive looking cow that is stacked with great cow families. Her great grand dam is the MAR Final Kahuna 856 cow that is also the dam of Genex's top selling semen seller MAR Innovation. There's also the famous Youngdale Grace cow that one could write a novel on all she has accomplished. I really like this bull

SCHIEFELBEIN GABLE 311

SITZ RESILIENT 10208
FROSTY ELBA LIZZY 5569

EDWARDS PERSHONE 322L

U2Q NOVEMBER RAIN 5H
EDWARDS PERSPHONE 322Y

It's hard to believe EDW 322N is a calving ease bull raised by a first calf heifer. He has all the depth, thickness, muscle and dimension one could ask for. Have your cake and eat it too with these Gabel sons, light birthweight, lots of performance.

EDWARDS ERICA 524L

ELLINGSON BIG RIVER 0052
EDWARDS ERICA 124J

I have been extremely pleased with my Gable calves and EDW 624N is a great example. He is smooth made with lots of length, hair and muscle, another impressive bull raised by a two year old heifer. If I was looking for a bull to put with my heifers, I wouldn't look any further.

EDWARDS ERICA 124J

SCHIEFELBEIN ATTRACTIVE 4565
EDWARDS ERICA 124B

Edwards Glacier 524N has been a favourite around here for sometime and rightfully so. He is a heavy muscled, big topped, big hipped bull with excellent structure and lots of power and performance. He is a very quiet bull that is hard to find a fault in. This guy just might create as much excitement as his full brother did in last year's sale being the high seller to Wayside Angus at Cudworth

PM PRINCESS 38'18

BAR-E-L NATURAL LAW 52Y
PRINCESS OF RING CREEK 27U

This is one heck of a herd sire prospect here. A little extra frame with all the length, thickness and power one could want. He is heavy haired with good feet and legs and is athletic in his movement. His mother is a gorgeous, heavy milking, Bar E L Natural Law daughter that I love to show everyone who comes around. she has raised the top bull in the pen every year since I got her and this year is no exception.

BAX MAUREEN EMILIE 243-559

Edwards Mercury 21N is a high gaining bull that is attractive, heavy muscled, and powerfully constructed. His Brooking dam is a powerful, tanky female that stays fat all year round. Lots of depth of rib, flank and lower quarter here.
