

BLAKE'S RED ANGUS

# PROVEN MATRONS

NOVEMBER 13 2024 | MOOSE JAW SK

# 2024 WELCOME

TO BLAKE'S RED ANGUS

# PROVEN PRODUCERS SALE

We would like to welcome you to our Proven Matrons Sale, this offering consists of all our 3 to 6 year old cows. Also on offer, we will have 6 fancy heifer calves to represent our herd bulls and the quality of their calves! It is never easy offering from the heart of the herd but we can stand proud with the quality, durability and production that is coming to town. These cattle haven't seen one easy year in regards to moisture but with that comes a proven product that has stayed relevant despite their environmental challenges. These females have cleared the hurdles and with that we have a set of Red Angus females that are fertile, sound and most importantly profitable. November 13th presents itself as a great opportunity for you to select genetics which we are proud to offer. The cattle market is strong and with inventory low there is plenty of promising times ahead for the beef industry.

We invite you to stop by the farm to see the herd and the country they are developed in. The cattle will be available for viewing at Johnstones Auction Mart on November 12th. Be sure to join us for lunch prior to the sale on November 13th!

Blake's Red Angus

We at Castlerock Marketing are excited to work with the Blake family in the offering of the "Proven Matrons"! This set of females are impressive and represent what the Angus cow is all about. McCord, Saskatchewan has never been confused with the rain forest and this set of females have never seen the wet years, but that for you the buyer offers plenty of upside. These Proven Matrons have bred on time, raised a good calf all the while they are still developing themselves, it doesn't take much thought to realize they've been challenged in every way possible. So for you the buyer, here's the opportunity to access a set of young females that have cleared the hurdles with many productive years ahead! The adaptability of these cows is pretty wide open as almost every other environment will offer more! The Blake's have always worked at implementing the genetics that fit their world and the proof is in the pudding so to speak!

Any questions regarding the offering feel free to reach out to us at Castlerock as we've been familiar with the program for a number of years. We are here to give you a straight up evaluation of the cattle.

See you sale day!

1

A super sweet, attractive Kingdom heifer calf that you could find in the dark! Shane and Mark both spotted her from a distance where they insisted she be in the sale. 41M goes back to one of our first purebred cows that we purchased from Six Mile in 1999. Bryan MacKenzie wanted her dam for RRUP but didn't go, she's definitely earned her keep here!

Stemming from a black red carrier dam that goes back to a very good Final Answer female we purchased from Windy Willows years ago. A real sweet Loaded heifer calf that we think has a tremendous future ahead of her. Ava Loveridge showed a Loaded heifer calf in 2022 where she was Champion Red Angus Heifer calf.

Another very good Van Halen daughter, they all carry a feminine look in a correct structure. Her dam sells as Lot 4, and her granddam is also one of the sale highlights in HMG 33G!

5

An awesome female that traces back to a cow that was one of the high sellers from Howe's in 2016. Her heifer calf that is being offered in the sale as well is a real beauty and will surely catch your attention.
